

Why choosing natural slate for your roofing project?

- ☑ Because a Roof slate tile is a Environmentally Friendly Roof. 100% Natural. A slate is only changed once in a lifetime when other roofing products need to be changed every 15 or 20 years.
- ☑ Because it has been used fo the last centuries on the most emblematic buildings all over the world and the qualities and the characteristics of the Natural Slate have been well proved.
- ☑ Because it gives an “original look” to your House or Building due to the Unique aesthetic of each piece of slate made by mother nature.
- ☑ Because it is Naturally Fire resistant unlike other roofing material and it is hard like a Stone so the Little breackgages will give low maintenance.
- ☑ Because a Slate roof is a roof for life.
