La pierre naturelle française a de l'avenir .

La pierre est le matériau de construction privilégié en France jusqu'au début du XXe. Délaissée par les architectes et les ingénieurs jusqu'à récemment, elle est en plein renouveau. [Plus d'infos](#)

El sector pizarrero en España

El sector pizarrero sigue ofreciendo datos positivos. Los últimos datos estadísticos indican que cierra el verano con datos en positivo en producción y facturación. [Leer más](#)
